

School District Suite

The affordable RDA School District Suite is a comprehensive, compliant (GAAP, GASB), and a fully integrated solution for small K12 school districts.

RDA played a key role in developing and establishing Best Practice Standards in Fund Accounting for School Districts that is still in practice in half of the United States. RDA's nationally recognized consulting practice assisted and trained schools to accurately manage and maintain their finances. The RDA School District Suite of Financial, Procurement, and Workforce Management software was developed from this established foundation of Fund Accounting's best practices and the nationally recognized expertise of RDA Systems.

This Suite provides feature rich, highly auditable, and modern software for Fund Accounting and Budget Management, Human Resources and Payroll, Resource Planning, and Procurement Management with secure Online Access to meaningful information for your staff.

All RDA Software operates confidently in the Google Cloud for secure, compliant, scalable, and dependable managed services.
